4:30am

This is a dream I had on this day:

## "REPENT AMERICAN PEOPLE!"

In the dream I saw an open area, like a big field type place and it was night time because it was dark. I was waiting for my husband to come out for us to pray outside in this place. Then all of a sudden like I had an open vision, where literally I saw above in the heavenlies this vision. The vision was of singers on a stage. They were like rock singers and there were many of them and it was as though through their singing they were luring crowds and crowds of young people. I could see crowds of young people being lured to this concert type thing that was happening and in the midst of this big concert thing, there were evil acts being committed everywhere. Violence, sexual imorality, and all sorts of other evil being committed everywhere in this gathering or concert place.

As I continued to look up at the clear night sky and this vision, I started seeing faces appearing. Large faces appearing in the sky. They were faces of Presidents (recent and past) and Politicians. I saw and recognized the face of an elderly man and a politician who at this time was always making the news headlines - he was a Democrat.

As I continued staring at this scene I felt this crazy feeling of dread and an urgency fell upon me in that instance to pray pray pray! Like there was an urgency to **pray and repent for the AMERICAN People** and to do so and pray for the Lord to hear and Bless and HEAL them (the American People), like the scripture says (**2 Chronicles 7:14**).

These scenes kept playing in the sky and I had my younger brother with me and he saw it too. It was like he was also witnessing these events in the vision. The time was about midnight and I ran back into the house/room to get my husband to come out and see the vision too.

When my husband came out to look at the vision in the night sky, the

scenes were still playing, but this time I realized that something was different - the scenes were being controlled by someone - as if it was being projected by a projector on a screen. It was as though someone was playing a movie with those scenes - someone was controlling it. I immediately noticed it and quickly told my husband that what we were looking at wasn't the real vision and pointed him in the opposite direction where there was no screen. There we saw the **open vision** as I had originally seen it. But as we were staring at this open vision, some men in suits were hiding under a building and my husband and I recognized them as FBI agents and CIA agents. They were coming at us from all directions trying to arrest us. It was as if they didn't want me or anyone to see what was in the sky or see the message in the vision. As I was there and there were others around too, all of a sudden I heard a **LOUD THUNDERING VOICE from the sky** : **"REPENT! AMERICAN PEOPLE!!! REPENT!!!** The voice was so loud and thundering that I could feel it echo and shake my entire being - I felt I couldn't stand or look up anymore. I knew *GOD* was speaking. All I could do was fall on my face and shouted: *"On behalf of ALL the Youths and young people I REPENT! On behalf of ALL the men and women of America, I REPENT! On behalf of me and my family GOD I REPENT!"* As I was shouting and repenting, I knew that it was for such a time as this for this nation. I continued to pray and repent on behalf of **AMERICA!**

- End of this scene in the Dream -
